

Marine Technology Society

A Unique, Multidisciplinary, Oceans and Marine Network

The EMSO-ERIC Pan-European Consortium: Data Benefits and Lessons Learned as the Legal Entity Forms. Mairi M.R. Best et al. *Marine Technology Society Journal*, May/June 2016, Volume 50, Number 3, pp. 8–15.

The Marine Technology Society is pleased to grant permission to reprint or post electronically the requested article without charge. The following conditions must be met:

- 1) The reprint or electronic posting is being made under the auspices of the author or the author's employer.
- 2) The material is used expressly for educational (non-commercial) purposes.
- 3) The source and MTS copyright are indicated, along with the following statement: **“This article is for personal use only, and is not to be distributed in any format.”**
- 4) The following brief paragraph is published with the reprint:
“The Marine Technology Society is a not-for-profit, international, professional association. Founded in 1963, the Society believes that the advancement of marine technology and the productive, sustainable use of the oceans depend upon the active exchange of ideas between government, industry and academia. See www.mtsociety.org.”
- 5) The reprint or electronic posting is not used in a way that implies MTS endorsement of a product or service.
- 6) The reprint or electronic posting is not offered for sale in any format, including PDF.
- 7) The reprint or electronic posting is offered to individual researchers who request it; institutional requests must be referred to the Marine Technology Society.
