

Supporting Information. M. Hidalgo, V. Rossi, P. Monroy, E. Ser-Giacomi, E. Hernández-García, B. Guijarro, E. Massutí, F. Alemany, A. Jadaud, J.L. Perez, and P. Reglero. 2019.

Accounting for ocean connectivity and hydroclimate variability in fish recruitment fluctuations within large transboundary metapopulations. *Ecological Applications*.

Data S1

Covariates and response variables included in the statistical models.

Description

DataS1.csv - Covariates and response variables included in the statistical models.

Abbreviations	Meaning
yr	Year
LR	Local Retention
SR	Self-recruitment
Imp	Import
1	Gulf of Lion
2	Catalan coast
3	Ebro delta
4	Valencia gulf
5	Northern Balearic Islands
6	Southern Balearic Islands
234	Iberian Peninsula
56	Balearic Islands
Rec	Fisheries recruitment
SSB	Spawning Stock Biomass
RHI	Regional Hydroclimatic Index
