

A BGC-Argo guide: Planning, deployment, data handling and usage

Henry C. Bittig, Tanya L. Maurer, Joshua N. Plant, Catherine Schmechtig, Annie P. S. Wong, Hervé Claustre, Thomas W. Trull, T. V. S. Udaya Bhaskar, Emmanuel Boss, Giorgio Dall’Olmo, Emanuele Organelli, Antoine Poteau, Kenneth S. Johnson, Craig Hanstein, Edouard Leymarie, Serge Le Reste, Stephen C. Riser, A. Rick Rupan, Vincent Taillandier, Virginie Thierry, Xiaogang Xing

Supplementary Material

Supplementary Figures and Tables

Supplementary Figure S1: Picture of the 20 m deep pool at Ifremer, France, used for profiling float testing. Floats are guided by a rope about 1 m from the edge (lower part of picture).

Supplementary Table S1: Example of pre-deployment meta data (green) and deployment meta data (light green) for a NKE Provor CTS4 float (WMO 3902121).
