

Additional Table S2: Technical parameters of the sea bass farm running under a quota on biomass.

<b>Parameters</b>	<b>Values</b>
Stocking weight	0.01 kg
Harvest weight	0.4 kg
Average morality over the production cycle	10 %
Feed wasted	10 %
Number of 600 m <sup>3</sup> cages	34
Number of 1800 m <sup>3</sup> cages	34
Density of transfer from 600 m <sup>3</sup> cage to 1800 m <sup>3</sup> cage	10 kg/m <sup>3</sup>
Quota on biomass	435 tons
