

Correction to: Co-designing marine science for the ocean we want

ICES Journal of Marine Science, fsad018, <https://doi.org/10.1093/icesjms/fsad018>

This is a correction to: Linwood H Pendleton, Stella J Alexandroff, Alison Clausen, Jörn O Schmidt, Howard I Browman, Co-designing marine science for the ocean we want, *ICES Journal of Marine Science*, 2023; fsad018, <https://doi.org/10.1093/icesjms/fsad018>

This paper is an Introduction to the Themed Set: “Co-Designing Science for the Ocean We Want” and all papers within that Set at the time of publication. The originally pub-

lished version of the introduction did not reference <https://doi.org/10.1093/icesjms/fsac158>, which is contained within that Themed Set.

The title of this introduction has also been changed from “Co-designing marine science for the oceans we want” to “Co-designing marine science for the ocean we want.” This is to match the title of the Themed Set and better reflect accepted terminology.

These errors have now been corrected.
