

WORKING GROUP ON BYCATCH OF PROTECTED SPECIES (WGBYC)

VOLUME 6 | ISSUE 103

ICES SCIENTIFIC REPORTS

RAPPORTS
SCIENTIFIQUES DU CIEM

Annex 4: (ToR C) Modelling outcome for each combination of Ecoregion, Species and Metier level 4 which had non-zero bycatch events over the past five years.

Presented is the model retained through AIC model selection. In addition, test of heterogeneity is presented (here TRUE means either the test is significant, or the best model includes variance component). The number of replicates (BPUE estimates) is presented.

ecoregion	metier level 4	Species	# 2017-2023	monitoring (Das) 2017-2023	replicates	heterogeneity
